...

A forceful argument against America's vicious circle of growing inequality by the Nobel Prize-winning economist. The top 1 percent of Americans control some 40 percent of the nation's wealth. But as Joseph E. Stiglitz explains in this best-selling critique of the economic status quo, this level of inequality is not inevitable.

of Inequality" is one of the most compelling economic books about the excessive inequality in the United States. It does a fabulous job of explaining three interlinking themes: that inequality is cause and consequence of the failure of the political system, and contributes to the instability of our economic system, which in turns contributes to inequality.

Joseph E Stiglitz

explains why the idea that deregulation and minimal government are good for the economy – and, therefore, for all Americans – is a myth. He tallies up the consequences of unequal income and wealth distribution, now approaching US levels last seen just before the Great Depression, and explains that this disparity has hobbled America's progress.
