The Skin that We Speak is a collection of essays by scholars about the struggle of language and culture in the classroom. They mainly address the issue of "Ebonics" and why it is looked down on as an "inferior" language. They talk about what we can do to change this negative outlook and why it's important. This book's pretty boring.

Exploring the connections between language, race, identity, and school success, The Skin That We Speak's thirteen essays delve into how speakers of "nonstandard" English—mostly varieties of African-American dialects, or Ebonics—view themselves, how schools have often perpetuated the educational inequities of African American and other children, and how educators can create the best ...

The Skin that We Speak: Thoughts on Language and Culture ...

Delpit states that our skin is the appearance of our contact with the rest of the world: "a means to negotiate our interactions . . . how we perceive our surroundings and [how others] perceive us" (p. xvii). The appearance and the looks we possess create expectations as to whether we are clever or not.
