More specifically, the Spectrum of Consciousness is a pluri dimensional approach to man's identity; that is to say, each level of the Spectrum is marked by a different and easily recognized sense of individual identity, which ranges from the Supreme Identity of cosmic consciousness through several gradations or bands to the drastically narrowed sense of identity associated with egoic consciousness.

Consciousness By Dr. A.J. Drenth
At age 23, the prodigious writer
and theorist Ken Wilber published
his first book, The Spectrum of
