Trophy Horse (Mill Farm Stables Book 2) by Amanda Wills

This is a powerful horse mill for four horses; probably English ponies, as modern heavy horses were not yet fully bred in the 1830s. Each of the four heavy oak beams connecting the central axle to the four horse shafts runs from beside the axle to the under-surface of the main gear wheel, and crosses the other three in a grid pattern between the axle and gear wheel, thus supporting the gear wheel and creating a rigid structure at the same time.
