A lateen (from French latine, meaning "Latin") or latin-rig is a triangular sail set on a long yard mounted at an angle on the mast, and running in a fore-and-aft direction.. Dating back to Roman navigation, the lateen became the favorite sail of the Age of Discovery, mainly because it allows a boat to tack "against the wind". It is common in the Mediterranean and the

## ~~Lateen—Wikipedia~~

The Gaff is the spar from which a four cornered sail is hung. This allows a fore and aft sail of a larger area, than that of a Bermudan sailing rig, to be hung from a mast of similar height. The advantage is the large area of sail high up, however the extra weight aloft brings its own complications.

~~Category:Sailing rigs and rigging~~  
~~Wikipedia~~

The rig is one mast and two sails. The mainsail is a tall, triangular sail mounted to the mast at its leading edge, with the foot of the sail along the boom, which extends aft from the mast. The sail in front called the jib or sometimes the headsail, mounts on the forestay between the bow and the masthead, with its trailing corner controlled by the jib sheet .

usually square-rigged four-masted barques.

## ~~Square rig~~ — Wikipedia

The rig. The luff of the sail is bound to the mast, but unlike the gaff rig where the head is bound to a spar, this rig supports the leech of the sail by means of a diagonal spar or spars named a sprit (/ s p r i? t /). The forward end of the sprit spar is attached to the mast, with the after end of the sprit spar attached to the peak. The sprit is steadied and controlled from the deck by a ...

## ~~Spritsail~~ — Wikipedia

Generally the rig is safer and less prone to broaching or capsize than a comparable sloop, and has more flexibility in sail plan when reducing sail under strong crosswind

# Online Library To Rig The Sail

conditions—the mainsail can be brought down entirely (not requiring reefing) and the remaining rig will be both balanced on the helm and capable of driving the boat. The ketch is a classic small cargo boat.

## ~~Sail plan — Wikipedia~~

Fortunately, rig tuning is a straightforward step by step process for both masthead and fractional rigs. The goals in rig tuning are the following: (1) Eliminate side bend and lean, (2) Set mast rake for proper helm balance, (3) Set pre-bend to match the mainsail design, and (4) Control mast bend and headstay sag.

## ~~How to Tune Your Rig | North Sails~~

A Bermuda rig, Bermudian rig, or Marconi rig is a configuration of mast and rigging for a type of sailboat and is

# Online Library To Rig The Sail

the typical configuration for most modern sailboats. This configuration was developed in Bermuda in the 17th century; the term Marconi, a reference to the inventor of the radio, Guglielmo Marconi, became associated with this configuration in the early 20th century because the wires that stabilize the mast of a Bermuda rig reminded observers of the wires on early radio masts.

## ~~Bermuda rig~~ - Wikipedia

A gaff rig employs a spar on the top of the sail and typically other sails can be set in conjunction with that mainsail with the gaff. Often, on the smaller, non tall ship, gaff rigs, there will be a small triangular sail that fits between the main and the mast like a puzzle piece – this is the topsail.

~~What's in a Rig? The Gaff Rig—  
American Sailing Association~~

The junk rig, also known as the Chinese lugsail or sampan rig, is a type of sail rig in which rigid members, called battens, span the full width of the sail and extend the sail forward of the mast. While relatively uncommon in use among modern production sailboats, the rig's potential advantages of easier use and lower cost for blue-water cruisers have been explored by individuals such as trans-Atlantic racer Herbert "Blondie" Hasler and author Annie Hill.

~~Junk rig—Wikipedia~~

By taking off the part of the sail and yard, in front of the mast, and letting the remaining part of the yard, rest with a yaw to the mast, the gaff rig was created. It can be used in ships of any
