## Traffic

### Techniques In Telecommunications

The article just describes one way of doing TE, and there are many more ways. For example, consider typical MPLS Traffic Engineering which uses CSPF (Constrained Shortest Path First) to perform Traffic

# Acces PDF

## Traffic

Engineering. The network traffic information (i.e. link bandwidth etc) is advertised and a shortest path is computed (CSPF) by pruning the links that violates constraints.

## Traffic

Wikipedia

The objective of traffic engineering (TE) in

telecommunication

including PSTN,

Packet Switching,

IP, MPLS, Mobile

networks, Satellite

Networks is to

maximize the

profit, i.e. the

difference between

revenue from user

# Acces PDF

## Traffic

charges and the total network cost. Service guarantees, Resource management policy and Traffic models are discussed.
