Transition: Understanding & Managing Personal Change ... The problems of each phase give us clues to managing the effects of personal change: At several stages we go through stress. So rule #1 is to take care of yourself. Maintain or improve personal fitness whenever you can, preferably half an hour each day of quality exercise time - desirable at any time, essential in transition.

Transitions: managing personal and organizational change Like good strategic thinkers, those who accept and manage personal change well are those who are clear about what they want. They are quick to decide what they cannot change, and to put it to one side. They are also effective in taking the necessary steps towards change and taking control of those elements that they can change.

Personal)transitions) Transition is about letting go of the past and taking up new behaviors or ways of thinking. Planned change is about physically moving office, or installing new equipment, or restructuring. Transition lags behind planned change because it is more complex and harder to achieve. Change is situational and can be planned, whereas transition is psychological and less easy to manage.

Transitions: The Personal Side of Change - TRG We can increase capacity by carefully and diligently managing the human side of change (i.e. the transition). We can increase resilience by seeking out and enhancing personal resilience. Resilient people are Positive, Focused, Flexible, Organized and Proactive. 3.
