Problem-Solving Strategies for Common Translation Problems. As every translator knows, there is much more to translation than simply possessing a native or native-level fluency in two or more languages. Translators face many different problems, from differences in style to untranslatable expressions. We've listed a few common problems for translators, along with strategies to deal with them:

What are the Problems of Translation and its Solution. By medtrans September 6, 2018 General. Translation isn't a natural process, so any languages that need to be translated should be undertaken by experienced translators who know both the source and targeted languages well. One of the common challenges in translation is having a deep understanding of not just the language but also the culture of the two languages that need to be translated.
