Person-Centred Care Planning 101 The care sector is experiencing a shift in the way practices and health systems are designed and managed. Traditionally, the role of patients and their families has been one of passive "order takers". Nowadays, many service providers are implementing a person-centred approach.

How to Create a Person-Centred Care Plan

To create the necessary therapist-client bond required by Rogerian person-centered psychotherapeutic treatment, the therapist listened actively to the client's account of her problems and feelings. In that regard, the therapist employed techniques such as repeating, paraphrasing, and rephrasing the client's perceptions to demonstrate understanding (Murdoch, 2008; Schmid, 2003).
