Salivary gland
tumours or
neoplasms are
tumours that form in
the tissues of salivary
glands. The salivary
glands are classified
as major or minor.
The major salivary

Online Library

Tumours Of The

Salivary Glands
The major salivary glands consist of the parotid, submandibular, and sublingual glands. The minor salivary glands consist of 800-1000 small mucus-secreting glands located throughout the lining of the oral cavity.
