Twinair Engine
Fiat's TwinAir engine is an Straight-twin engine designed by Fiat Powertrain Technologies as part of its Small Gasoline Engine (SGE) family — employing Fiat 's MultiAir hydraulically actuated variable valve timing and lift technology.

Fiat TwinAir engine - Wikipedia

The TwinAir engine has an exact displacement of 875cc. It has 2 cylinders, with 8 valves each and a 10:1 compression ratio. FTP, the masterminds behind the two cylinder unit, say they have...

TwinAir Engine Explained - autoevolution

Its tiny engine features the MultiAir electro-hydraulic valve propulsion system the company has been rolling out with other engines, which cuts pumping losses and improves efficiency by around 10...

Fiat 500 TwinAir review | Autocar

It 's the new TwinAir, so called because it has an engine quite unlike anything else we 've ever seen before. There are only two cylinders, which is not a revolutionary idea. The original Fiat 500 was similarly equipped. However, in the new version, there is no camshaft.

The Clarkson review: Fiat 500 TwinAir (2011)

The twin-air engine is a twin-cylinder in -line (parallel twin) engine with variable valve timing (MultiAir) from Fiat's subsidiary Fiat Powertrain Technologies . The engine has been in use since September 2010.

Fiat TwinAir Tuning - torquecars.com

The gut-wrenching sound of rending metal brought on by an unsatisfactory skirmish with a heavily-armoured octogenarian aside, there have been three key characteristics to Fiat Panda 0.9 TwinAir...

Fiat Panda 0.9 TwinAir (2013) long-term test review | CAR ...

The Twinair has is distractors, to be fair a lot just don't get it. To get the best out of it, you need to forget what you hear from the engine and keep it pulling around 1900-2100 rpm, you can also lift off the pedal early as it doesn't engine brake as much as a normal engine, so you can glide in gear better.

General: Buying Fiat 500 twinair 0.9, possible problems ...

The NA TA (one has yet to be released) will be 65bhp so boosting the engine to 85bhp seems reasonable; to 105bhp we are probably still within the rigours of reason. If you look at the A500 where most of the engines are running at 165bhp - 65% up on the NA - this engine seems by all accounts to be a hardy engine. But with the TA being 'half an ...

Technical: TwinAir: Will it be reliable? (discuss) - The ...

Lots about the Fiat 500 Twin Air I'm glad it's not just me that feels like this. I found it really tricky to drive in town, mainly because the normal gearchange indication (i.e. the engine noise ...
