Navigate to the Users screen again and find the user code. Then, click the 'trash' icon (circled below) and confirm the deletion. To change a user's access details without deleting them altogether, click the 'edit' icon, which will take you to an 'Update User' screen where you can change their permissions, times and four-digit code. Now that you've created your first user code, you can create one anytime you need to let a trusted guest into your home.
