A manual is expected to give more in-depth information and instruction than a guide, which is just expected to give the overall information that the person or user may require. Basically, it can be said that a manual is a complete, in-depth set of instructions, whereas a guide is a simple 'how-to' that has enough information to get the user started.

Difference between Manual and Guide | Manual vs Guide

When I worked in the UK, it was (mostly) referred to as a User Manual. Whereas in the US, it was a User Guide. I think the Americans (and me!) like things to be short and to the point. Guide is just that little bit quicker to write, especially when you're creating MS Word templates.

User Guide vs User Manual – which is right? – Technical ...

As nouns the difference between guide and manual is that guide is someone who , especially someone hired to show people around a place or an institution and offer information and explanation while manual is a handbook. As a verb guide is to serve as a guide for someone or something; to lead or direct in a way; to conduct in a course or path.
