A daily vehicle check routine provides a straight forward means of informing the operator that some aspect of the vehicle may be faulty, or in need of repair or replacement. It is important to tell your drivers what is expected of them and provide training on what to check and how to check.

Vehicle checks and maintenance requirements | Commercial Motor

A daily vehicle inspection should be conducted using a checklist for each specific type of cart to include all applicable visible and functional items. Use this generic checklist as a guide in developing checklists for your department's specific type of cart(s). Any vehicle not in proper working order should be reported to the Supervisor and the cart taken out of service until properly repaired.

Instead, we provide this standardized Company Vehicle Checklist template with text and formatting as a starting point to help professionalize the way you are working.

Company Vehicle Checklist | Templates at ...

A mechanic attending to a vehicle is just like a nurse attending to a patient. There has to be a process on how to perform this task properly. It should always start with interviewing the owner of the vehicle as to why they brought their vehicle to the shop and then proceed by making observations and further assessing the vehicle for problems. you may also see Checklist Samples .
