The Volkswagen air-cooled engine is an air-cooled boxer engine with four horizontally opposed cast-iron cylinders, cast aluminum alloy cylinder heads and pistons, magnesium-alloy crankcase, and forged steel crankshaft and connecting rods.. Variations of the engine were produced by Volkswagen plants worldwide from 1936 until 2006 for use in Volkswagen's own vehicles, notably the Type 1 (Beetle ...

~~Volkswagen air cooled engine - Wikipedia~~

The 1300 used the 1200's lower (higher numerical) axle gearing, but the engine had a big jump in peak power rpm, from 3900 (1200) to 4600 (1300). The 1500/1600s all used a substantially taller final gearing, and these motors were tuned for torque, and reverted to a lower peak power rpm.

The Volkswagen Beetle—officially the Volkswagen Type 1, informally in German the Käfer (meaning "beetle"), in parts of the English-speaking world the Bug, and known by many other nicknames in other languages—is a two-door, rear-engine economy car, intended for five occupants (later, Beetles were restricted to four people in some countries), that was manufactured and marketed by German ...

~~Volkswagen Beetle - Wikipedia~~

VW Beetle & Karmann Ghia, 1954 thru 1979 Models, with additions from Rob Boardman. The single port engines make a little less power and can only use the smaller 30 series carburetors or the mod-ern replacement H30/31, but are considered a little more torquey, and are popular with off roaders. The twin port

~~1953-1974 VW Engine Type and Number~~

The 1300 arrived (1285cc) which used the crank from the Type 3 1500 to lengthen its stroke, boasting a power output of 40bhp. As with all Type 1 engines built from July 1962, a new [fresh air] heating system was used. At about this time, VW was developing engines for its new range of family saloons; namely the Type 3.

~~Air-cooled Type 1 engine evolution explained - Heritage ...~~

Increased horsepower from 43hp [47hp and displacement increased from 1500cc [1600cc. US models get 1600cc single port engine. US models get larger turn signals and side reflectors on housing. Two sets of air intake slots added to engine lid. Pressure control valve added to lubrication system.

~~1970 VW Beetle specifications and technical details ...~~

The dead-stock 1300 makes either 36, 40, or 50 HP depending on which year you pick. If on the other hand, you take something like a Jeff Lininger race-spec Formula Vee 1300, you're slightly over 60HP. If you open that up a little more by using dual carbs instead of the stock single PCI-28 you can hit 70 pretty easily.

~~1966 Beetle Technical Information - 1966 vw beetle~~

Hi! I probably shouldn't have, but I bought a Burro buggy with a bill of sale. I would like to legalize the car in Mi. The bill of sale says the chassis is a VIN #3602294 and supposedly a 1963 VW Beetle. The engine carries a # AK089411 and is supposed to be a 1974 1600. I found the engine number, but cannot find the chassis # anywhere.

How to Keep Your Volkswagen Alive: A Manual of Step-by-Step Procedures for the Compleat Idiot: First published in 1969, this classic manual of automotive repair equips VW owners with the knowledge to handle every situation they will come across with any air-cooled Volkswagen built through 1978, including Bugs, Karmann Ghias, vans, and campers.

~~How to Tune Up an Air-Cooled Volkswagen Engine | Air ...~~

77mm, 83mm, 85.5 mm: Stock VW engines (aircooled type 1 1300/1500/1600 cc) came stock with these piston sizes, respectively. Slip in piston and cylinder sets are available in "size upgrade" of 87mm and 88mm, but we do NOT recommend them EVER, PERIOD. There are NO special cases or exceptions to this recommendation.

~~VW Performance Engine Building: Considerations~~

The use of "VW" and the name Volkswagen, Beetle, Bug, Ghia, Karmann Ghia and Type 3 or any other name owned by Volkswagen Corporation by MOFOCO Enterprises is for the sole purpose of application and description and in no way is intended to infer or imply any connection with or between MOFOCO Enterprises and our products and the Volkswagen ...

~~Mofoco VW Engines~~

Up for sale is a 1966 VW Beetle that has been sitting in a barn for some time. The Bug was taken off the road in 1995 and sat in a garage, then a barn and for the last 8 months a parking lot. The Beetle has never been in an accident and was lovingly maintained when it was on the road, with only 2 owners (1 family) since its purchase in 1967.
