The Italian Regulatory
Authority for

Electricity Gas and
Water (L'Autorità per

l'energia elettrica il
gas ed il Sistema

Idrico, AeeGSI), an
autonomous entity

created by law, is
tasked with defining

uniform criteria for the
setting of water tariffs.

Download File

PDF Water

Water tariffs should be set in such a way that they provide incentives for higher investments while keeping water affordable for “vulnerable customers”.

Water governance

Download File

PDF Water

covers the manner in which allocative and regulatory politics are exercised in the management of water and other natural resources and broadly embraces the formal and informal institutions by which authority is exercised.

What is water governance
