Our legacy is your future. Purposely designed for the oil and gas industry's most challenging and remote environments, our earliest technologies are still among your best performers.

Waukesha Gas Engines - INNIO

Built for dependability, longevity and durability, VHP engines have been working in natural gas production applications for over 40 years. Low emissions across varying applications Hot fuel tolerant Wide turn down range available (700 – 1,200 rpm) Extended service intervals

VHP Engine - INNIO

The Waukesha Series Four rich-burn engines are the engines of choice for the harshest and most demanding gas compression, power generation and mechanical drive applications. The engines can reliably produce more power on hot field gases, at high altitudes, and in remote locations, all while delivering low emissions when paired with a 3-way catalyst (non-selective catalytic reduction).
