Web 2.0 Usability - slideshare.net

Web usability is known as the ease of using a website.

Website usability is linked to the design of any website and
the ease with which any user can use the website. The
website must be user-friendly and every user must be able to
easily use the website.

Web Usability 2 0 Lusabilit Che Conta

At the Oz-IA 2008 Conference in Sydney, I gave a talk about the different ways information on the web can be identified and found. The talk included the findings of a recent survey into the use of Web 2.0 tools, which suggest that a far smaller percentage of the general community use web 2.0 tools than we sometimes expect, and those who do use them, do so much less often.

Home | Web Usability

The Directive uses the four principles of the Web Content Accessibility Guidelines (WCAG) 2.0, requiring that public sector organisations across the EU take steps to make sure their websites are “ Perceivable, Operable, Understandable, and Robust. So again, by meeting the WCAG 2.0 AA you will also comply with the EU Directive.

What is the law on accessibility? - Web Usability

Central to WCAG 2.0 is the notion of technological neutrality, since this will allow the guidelines to be applied to all current and future web technologies. In conjunction with this approach, the WCAG Working Group introduced the concept of “ accessibility-supported ” and the associated requirement that only accessibility supported ways of using technologies can be relied upon to satisfy ...

As so many discussions about Web 2.0 focus on the technology and methods, it is often forgotten the most important part, usability, the experience of the user. Web 2.0 has brought technologies that can be used to create a more interactive and better experience for the customer. Some of the technologies that have been developed include RSS (Really Simple Syndication) and Ajax. Ajax is a web technique that makes pages feel more responsive, making pages more functional and faster.

Usability of Web 2.0 - Blizzard Internet ...

Web2.0 sites mean that users have become the producers of content and the designers of each others' viewing experience. Technologies such as AJAX combined with public Javascript libraries have.
