### Web Wisdom How To Evaluate

The World Wide Web has undergone tremendous growth since the first edition of *Web Wisdom: How to Evaluate and Create Information Quality on the Web* was conceived and written in the mid to late 1990s. The phenomenal global expansion of the internet, together with the increasing sophistication of online technologies and software applications, requires us to be more savvy Web users, especially given the growing complexity of Web-based information.

---

### Web Wisdom: How to Evaluate and Create Information Quality ...

The authors, two librarians, examine numerous aspects of Websites and point out how they can be used to evaluate sites as trustworthy sources of information or goods. They begin with 5 traditional evaluation criteria: authority, accuracy, objectivity, currency, and intended audience, and give examples of how these criteria apply to Websites.
