With the Apple HomePod, we're really reviewing two things at once: a premium speaker and a smart home hub. In the former category, the HomePod is excellent, with amazing sound and incredibly...

Apple HomePod review | TechRadar

That Apple does things in its own sweet time is no new discovery. But even by its own standards, the company arrived late to the wireless speaker party. But being late is perfectly acceptable if you're the life and soul when you arrive – and that's pretty much the story with the HomePod.

Apple Homepod Apple Homepod Manual **HomePod - Apple**

The HomePod is Apple's take on the smart speaker. The design is very Apple, so is the entire thinking around the product. It has a stunted cylindrical look and is much smaller than the Echo Studio which it will compete with in the Indian market. The fabric finish is soft and the speaker has a slight cushiony feel when you hold it.
