World history or global history as a field of historical study examines history from a global perspective. It emerged centuries ago; leading practitioners have included Voltaire (1694-1778), Hegel (1770-1831), Karl Marx (1818-1883) and Arnold J. Toynbee (1889-1975). The field became much more active (in terms of university teaching, text books, scholarly journals, and academic associations) in the late 20th century.

Global history is another Anglospheric invention to integrate the Other into a cosmopolitan narrative on our terms, in our tongues. The retreat from learning how to talk with others reflected a wider stall. Despite the embrace of global history, there is evidence that the global turn didn't actually help to raise the profile of the Rest.

Is global history still possible, or has it had its moment ...
Global history is one perspective among others. It is a heuristic device that allows the historian to pose questions and generate answers that are different from those created by other approaches. The history of slavery in the Atlantic World is a good example.
