Bernard Dixon obituary | Science | The Guardian
Bernard Dixon, a renowned science journalist and past editor of New Scientist (1969-79), died on October 30, 2020. He was 82 years old. Dixon, a member of the American Society for Microbiology (ASM), wrote the popular "Animalcules!" column for the ASM membership magazine (originally ASM News, later MICROBE) from 1996-2015.

Bernard Dixon obituary | Science | Warta Saya
Bernard Dixon, who died on 30 October, was my editor at New Scientist for seven years, during which time I learned my trade as a journalist. He was an extraordinary editor, nurturing the talent he brought to the magazine with great care and creating a magazine that became the voice of science to the general public.

Bernard Dixon obituary | Science. New Scientist, the weekly based in 1956, owes its persevering with success to Bernard Dixon, its editor from 1969 to 1979. Due to his personal mix of curiosity, enthusiasm and scepticism, he struck a profitable and on the time, distinctive stability between accessible science reporting, evaluation of latest expertise and scrutiny of the relationships between science, authorities and society.
