Online Library What Should We Be Worried About

Money The economic recovery turns 10 this month. Don't get too comfortable. There's plenty to be worried about.

What Should We Be Worried About? : Planet Money : NPR

So how worried about mutations should we be? While there is evidence that they could be both a threat and an aid, it's important to recognise how little we know about the virus - our knowledge is shifting all the time. Early interpretations of data and sampling biases mean that conclusions from studies should be treated tentatively.

Coronavirus is mutating - should we be worried? | Varsity

We should be worried about real human stupidity, not imaginary artificial intelligence. The problem is not HAL but H.A.L. - humanity at large. Thus we should rather concentrate on the real challenges. By way of conclusion, I will list five of them, all equally important. We should make AI environment-friendly.
