Why can't I fly in Roblox. For some reason, I can't seem to be able to fly anymore I Royale High. When I first joined, I used to be able to however after sometime, whenever I tried to fly again, it would teleport me to this rock and I would turn invisible. I would then have to leave the game in order to be able to play again.

I used to play around with SetFlySpeed with Minecraft Plugins, but now I can't fly at all. The normal FlySpeed is 1, but mine is 1.0E-4. I also tried to set my FlySpeed to 1, but it doesn't change anything. I can just go into a fly position and then I just can't move anymore, that means I can only move on the ground. Of course my AllowFlight is true and I'm even in creative mode. The whole ...

You can't fly anywhere on Argus, even if you unlocked flying in Legion zones by completing Broken Isles Pathfinder, Part Two. This is a deliberate design decision by the World of Warcraft team. While there are no plans to allow flying in the future, you can complete an achievement to increase your mount speed on Argus.
