coil, reel, flange, or box is the only means to identify wire/cable covered under UL certification and Follow-Up Service. The UL symbol or letters "UL" surface printed on the wire/cable is only a supplemental method of marking the product and should not be considered as evidence of UL coverage.

### Wire and Cable - UL

UL or Underwriters Laboratories, is an independent, non-profit global safety certification company and testing laboratory headquartered in Northbrook, IL. UL conducts safety and quality tests on a broad range of products including more than 70 different wire and cable product categories to national and international standards for safety,

# Online Library Wire And Cable UI

performance, quality, environmental impact and regulatory compliance.

## Understanding UL Listed vs. UL Recognized for Wire and Cable

In addition to the IEC standards, the new Acid Gas 14 (AG14) Mark has been developed. All nonmetallic compounds and components contained in the wire or cable construction are evaluated to the Acid Gas Emission test in accordance to UL 2556. Benefits. Cable designers can use one set of requirements for their designs that can be sold and applied around the world and do not rely on self-declaration/certification. Even more importantly, the end user has clarity as to what requirements apply. Why UL
