Work-family conflict - Wikipedia

done by substituting work-family conflict (WFC) for Moore's role stressors and by adding organizational commitment, both of which we believe apply to the unique challenges of IT RWs. Like Moore, we examine the effects of autonomy, perceived work overload, work exhaustion, and fairness of rewards, all relevant in the RW context. We suggest the key

IT Road Warriors: Balancing Work-Family Conflict, Job ...

Work-family conflict is a form of inter-role conflict that occurs when the energy, time, or behavioral demands of the work role conflicts with those of the family role (Greenhaus & Beutell, 1985). A key assumption of work-family conflict is that the demands and expectations of work (e.g., working late, travel) often conflict with those of the family (e.g., picking up a child after school to be able to attend their soccer practice or music lesson) or taking a parent to the doctor when they ...
